Accountability and Commitment to Accomplishment  

Policy: AE

The Expeditionary Learning School BOCES shall adopt and maintain an accountability program to stimulate continuous improvement of the educational program and to measure the adequacy and effectiveness of the program.

The BOCES has directed that the functions of a District Accountability Committee, as described in Colorado Statutes 22-7-101 through 22-7-106 and the functions of a school level accountability committee shall be performed by Rocky Mountain School of Expeditionary Learning (RMSEL) Community Council.

The BOCES accountability program will operate as described in the BOCES’ Accreditation/Accountability Contract with the Colorado State Board of Education. It will include the development of an annual school improvement plan and an annual school report to the community on student performance results and the results of the school improvement plan.

Every effort shall be made by the BOCES, the executive director, the staff, and the accountability committee to fulfill the responsibilities inherent in the concept of accountability, the intent of the Educational Accountability Act, and the state requirements for accreditation of schools and school districts implemented through the Accreditation/Accountability Contract.

All accountability committee meetings will be open to the public. Meeting notices will be appropriately posted.

Proposed: February 18, 2009
Adopted: April 8, 2009
